PIOCHE, NEVADA, THURSDAY, JUNE 13, 1895.

NO. 38.

OUR WASHINGTON LETTER.

Washington, June 5, 1895.

Vice-President Stevenson is about the only man who has been prominently mentioned as a probable Presidential candidate who has not announced in one way or another his position on the all absorbing silver question, and so much has been said about this omission that it has been decided to attempt to compel him to quiet the claims now being put forth by certain interested parties, by a definite announcement of where he stands. While that point has not been fully decided, it is probable that this attempt will be made by writing Mr. Stevenson a letter that he must answer in a manner to make plain his position. It is the silver men who propose making this attempt to draw Mr. Stevenson out, but the Cleveland Democrats are equally anxious to know whether he is with them or against them. All this seems a little ouger in view of the statements made that the silver agitation in Illinois was started for the purpose of booming Mr. Stevenson. It is only another instance of silence begetting curios-

ity, and curiosity begetting suspicion.

Journal Clerk Crutchfield of the House has just returned from his home, and those who know him regard his opinion of politica in his State as unsurpassed. He says of the situation there: "I see by the papers the general disposition to make people believe that the free silver, 16 to 1 sentiment in Kentucky is dying. Kentucky is my home and I may safely pretend to know something of existing sentiment there. Kentucky was never more strongly for any proposition than it is to-day for free silver at 16 to 1. I know this from personal talks with and letters from Kentuckians. The convention will be for free silver at 16 to 1 The sentiment of the Legislature will be the same, and as a result Blackburn will be elected to the Senate to succeed himself. The free eilver people haven't as many city papers as their opponents, but they have infinitely more votes." A personal friend of Secretary Carlisle's says the Secretary has given up any hope of defeating free silver in Kentucky, but still clings to the hope of preventing Blackburn's re-election. President Cleveland particularly desires to see Blackburn defeated, and efforts to that end will not cease until the Legislature has been elected and has elected a Senator.

The silver men are rather inclined to poke fun at ex-Secretary Whitney's published opinions on the silver question, which are supposed to be important because of the chance Mr. Whitney has of being nominated for President by the Democrats. One of them said the whole interview with Mr. Whitney might have without loss of sense substance been condensed into "I am friendly to silver, but in favor of waiting for Europe to remonetise it."

According to Senator Carter of Montana who is now in Washington, the Rocky Mountain and Pacific Coast country will work industriously to secure the nomination of Senator Cameron for the Presidency by the Republicans.

If Representative Otey, of Virginia, is not misinformed as to the sentiment of his State, the silver revolt has also got a foothold in the Old Dominion. Mr. Otey says: "In my judgment the delegation that will go to the next National Democratic convention to nominate a President will be solidly in favor of candidate who will come out for free coinage. Cleveland could not again be the choice of the Virginia Democracy, on account of the policy he has adopted towards

Senator Gorman's friends are quietly laying the wires by which they hope to make him the Presidential candidate of his party. Mr. Gorman's whole political policy is comprehended in one word-compromise-and as a compromiser he has been a great success in the Senate. He has seldom failed in that line. His two most noted successes were the compromise with the silver Republicans by which he defeated the Federal election bill and the adoption of the present

Another reservoir dam has broken. This time the disaster occurred in Nebraska. It furnishes another illustration of the importance of constructing dams in a much stronger way than some engineers seem to think necessary. In the future reservoirs will be built in many places in the arid regions for the storage of water to be used in irrigation, and it is of the greatest importance that they be so built that there would be no danger of their breaking. It is practicable to make them secure and the law should require them to be built in a way that would remove all danger of disasters like those which occurred in Johnstown and other places.

The elevator boy in the big flat was airing his views to a passenger on the proper conduct of children

"What do you know about it?" laughed the passenger. "You're not married, are

"Well, no," replied the boy, "but I've brought up a good many families in my time," and then he gazed up the elevator shaft with a rapturous expression.

When a President of the United States has a cabinet vacancy to fill he gets as much free advice as if he had a bad cold.

It is estimated that at least 1,500 delegates was appointed to attend the silver convention which met at Memphis, Tenn., June 12th, and county and township mass meetings in large numbers were held for the election of delegates. With this outpouring of the advocates of the free coinage of silver, the gathering is expected to eclipse the recent "sound money" demonstration in

The great forty inch lens, the largest tolescope glass ever made, which Alvan E. Clark of Cambridge Mass., has been working on for more than a year for the Yerkes telescope, is completed and will soon be shipped to its destination.

Capital has been largely withdrawn from manufacturing and commercial enterprises, because there is mere to be made by specu lating in money as a commodity.

Perhaps the hot time in New York is due to the report that the Prince of Wales is coming over.

Notice to Lienholders.

Notice to Lienholders.

Notice is herreby given that the Undersigned has commenced an action in the District Court of the Fourth Judicial District of the State of Nevada, sitting within and for Lincoln County, in which the undersigned is plaintiff and the Keystone Mining Company of Nevada, a corperation organized under the laws of the State of lows, is defendant, which said action is brought to establish, enforce and forecless the liens of the plaintiff and of D. cases tory use, or judgment by detail with the taken against you, according to the prayer of said complaint.

The said action is brought to recover judgment against you, the said defendant for the absolute dissolution of the bonds of matrimony now existing between you and said plaintiff on the grounds that you have willfully abandoned and deserted the said plaintiff for more than a year last past and have neglected and refused to furnish her with the common necessaries of life for more than a year last past, and that such neglect was not on account of poverty which could not be avoided by ordinary industry. All of which more fully appears from the complaint on file in the office of the Olerk of said Court.

And you are hereby notified that if you fail to appear and answer the said complaint as above required, the said plaintiff will apply to said Court for the relief demanded in said complaint. In testimony whereof, I, Geo. S. Bawyer have hereunto set my hand this lat day of April, A. D. 1895.

Eureka Chemical & M'f'g Co., La Crosse, Wis. Eureka Chemical & M'Ig Co., La Crosse, Wis.

Dear Sirs—I have been a tobacco fiend for many years and during the past two
years have smoked fifteen to twenty cigars regularly every day. My whole nervous
system became affected, until my physician told me I must give up the use of tobacco
for the time being, at least. I tried the so-called "Keeley Cure," "No-To-Bac," and various other remedies, but without success, until I accidentally learned of your "BACO-CURO." Three weeks ago to-day I commenced using your preparation, and to-day I considered myself completely cured; I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "BACO-CURO" simply wonderful, and can fully recommend it.

Vours vew truly. Yours very truly,
